

# MANCHIN SECURES COMPLETION OF MOUNTAIN VALLEY PIPELINE

Senator Manchin has secured a commitment from President Biden, Leader Schumer, and Speaker Pelosi to pass legislation that will allow the Mountain Valley Pipeline (MVP) to be quickly completed and streamline the permitting process for all energy infrastructure – from transmission to pipelines and export facilities. Completion of the MVP, which is 94% complete, will allow the United States to unleash our abundant supply of clean American energy by unlocking 2 billion cubic feet of natural gas per day, lowering prices at home & allowing us to backfill our allies around the world currently relying on Vladimir Putin and other dictators.

## KEY FACTS ABOUT THE MOUNTAIN VALLEY PIPELINE:

**94% complete**

**\$1.2 billion** in additional investment to complete the project

**4-5 month** construction period

**Approximately 2,500** construction related jobs

**\$40 million** annually in new tax revenue for West Virginia and  
**\$10 million** annually in new tax revenue for Virginia

**\$200-250 million** more per year in royalties for West Virginia landowners

Completion will allow the previously-planned MVP expansion and MVP Southgate to proceed, which will create approximately 2,000 construction jobs and invest an additional \$1 billion into West Virginia and Virginia.
